

911-Stroke Song

D
Nibbling on granite, Marshmallows are planets

A
Why do I make no sense at all

Strumming a boot string, Big orange truck spring

D
Better sit down I am starting to fall

G A D
Fading real fast I'm going down hill

G A D
My brain is coming to a halt

G A D G
I'm afraid that I'm having a stroke

A D
But I know it's nobody's fault

D
Felling my headache, watching my arm shake

A
What the hell is happening to me

Feeling unsteady, I'm not ready

D
Something is wrong what can it be

G A D
Fading real fast I'm going down hill

G A D
My brain is coming to a halt

G A D G
I'm afraid that I'm having a stroke

A D
But I know it's nobody's fault

D
Too much smoking and now I am stroking

A
A life of drinking at the bar

Diabetes and heart disease, too much meat and cheese

D
That's what brought me down this far

[illegible]

D
Don't be like me, try to live healthy
A
And See your doctor regularly

Take your medication, go on vacation
Be happy, healthy and live free

And you'll be
G A D
Wasting away again in margaritville
G A D
Searching for your lost shaker of salt
G A D G
If you live your life healthy and free
A D
Then you won't have a cerebral assault

[illegible]
