

911-Weather
Garth Brooks-Friend in low places
Weather disasters

G G G

G
I'm out on the town, rains coming down
Am
Wind is starting to blow
D7
I won't go far, need to get out of my car
G
Inside a building I'll go

Turn on the radio and the stereo
Am Cm
Listen to the weather broadcast
D7
Then I can be sure I'm safe and secure

Just waitin for that storm to pass

G
We get down in low places

When the siren sounds we cover our faces

Am D7
Till it's away and we're ok
G
I make plans for bad weather

Have an emergency kit altogether

Am D7 G
And we get down in low places

G
Blame it all on the wind, I just can't pretend
Am
This storm will quickly pass
D7
Clouds are getting darker rains coming harder
G
The streets are flooding real fast

And I saw the surprise and the fear in your eyes
When the siren started to sound
So we went inside and started to hide
Before the tornado touched down

We get down in low places
When the siren sounds we cover our faces
Till it's away and we're ok
I make plans for bad weather

Have an emergency kit altogether
And we get down in low places

(instrumental verse)
Blame it all on the wind, I just can't pretend
This storm will quickly pass
Clouds are getting darker rains coming harder
The streets are flooding real fast

And I saw the surprise and the fear in your eyes
When the siren started to sound
So we went inside and started to hide
Before the tornado touched down

We get down in low places
When the siren sounds we cover our faces
Till it's away and we're ok
I make plans for bad weather

Have an emergency kit altogether
And we get down in low places

Am D7 G
And we get down in low places
