

Stuck in the Middle with You.

(A fire safety song by Chris Johnson)

(Yeah.....Its stolen from that other song by the same name)

Well I don't know how I got here tonight,
I gotta a feeling that something ain't right.
I'm so scared I might just fall off my chair,
And I'm wondering how I'll get out of here.

I got hazards to the left of me,
Hazards to the right.
Here I am,
Stuck in the middle with you.

Yes I'm stuck in the middle with you,
And I'm wondering what it is I should do.
There's a smoke detector up on the wall,
And it doesn't have a battery at all.

I got hazards to the left of me,
Hazards to the right.
Here I am,
Stuck in the middle with you.

Well you take the smoke detector and you put a battery in the back,
Then you close the plastic cover and you press the old test button,
It goes be-e-e-e-eep. It goes be-e-e-e-eep.

Trying to make some sense of it all.
But I can see that it makes no sense at all.
There's a space heater down on the floor,
And it doesn't have enough room to glow.

I got hazards to the left of me,
Hazards to the right.
Here I am,
Stuck in the middle with you.

Well you take the smoke detector and you put a battery in the back,
Then you close the plastic cover and you press the old test button.
It goes be-e-e-e-eep. It goes be-e-e-e-eep.

Well I don't know how I got here tonight,
I gotta a feeling that something ain't right.
I'm so scared I might just fall off my chair,
And I'm wondering how I'll get out of here.

I got hazards to the left of me,
Hazards to the right.
Here I am,
Stuck in the middle with you.

Yes I'm, stuck in the middle with you.
